Preface

This book is entitled *Understanding English Syntax*. It is written for the teachers, researchers, students, or learners who are interested in learning English Syntax.

This book is divided into two major parts. The first part discusses English Syntax based on the Formal Grammar while the second part based on Systemic Functional Linguistics.

The first part discusses Scope of Syntax, Phrases, and Clauses and Sentences. The second part discusses Another Perspective: Systemic Functional Linguistics, Groups and Phrases, and Clauses and Clause Complexes.

Many thanks should go to Prof. Dr. Dudih A. Zuhud, M.A. for his careful review and feedback to each chapter of this book.

The writer hopes this book can be a great help for the readers to understand deeper about English Syntax relates to Formal Grammar and Systemic Functional Linguistics. The writer will really appreciate constructive feedback and comments for the improving of this book.

Part One	
Chapter 1 Scope of Syntax	
Introduction	1
Word Class	2
Open Class	2
Nouns	2
Verbs	5
Adjectives	6
Adverb	9
Adverbs as Modifiers	11
Adjuncts	13
Subjuncts	13
Conjuncts	13
Disjunct	14
Closed Class	14
Articles	14
Pronouns	15
Auxiliary Verbs	16
Degree Words	17
Prepositions	18
Conjunctions	19
Different Forms: Different Meanings	21
Chapter 2 Phrases	
Introduction	22
Head Words	23

Modifiers	24
Phrases	26
Noun Phrases	26
Verb Phrases	28
Adjective Phrases	30
Adverb Phrases	32
Prepositional Phrases	32
Chapter 3 Clauses and Sentences	
Introduction	36
Clauses	36
Pattern of Clauses	37
Transitive Clauses	38
Monotransitive Clauses	39
Ditransitive Clauses	39
Complex Transitive Clauses	40
Intransitive Clauses	40
Copular Clauses	40
The Elements of Clauses	43
Subjects	44
Verbs	46
Objects	46
Complements	47
Subject Complements	48

Adverbials	50
Definition of Sentences	50
Kinds of Sentences	51
Simple Sentences	51
Compound Sentences	51
Complex Sentences	53
Compound Complex Sentences	53

Part Two

Chapter 4 Another Perspective: Systemic Functional

Linguistics

Introduction	54
Psychological, Grammatical, Logical Subjects	54
Clause as Message	57
Themes	57
Ideational Themes	58
Textual Themes	62
Interpersonal Themes	64
Rhemes	67
Clause as Exchange	67
Mood	67
Indicative Mood	69
Declarative	69
Interrogative	69
Imperative Mood	71
Residue	72
Clause as Representation	72
Material Processes	73
Mental Processes	75
Verbal Processes	77
Relational Processes	78
Behavioral Processes	79
Existential Processes	80

Chapter 5 Groups and Phrases

Introduction	81
Groups	81
Nominal Group	82
Verbal Group	86
Adverbial Group	88
Conjunction Group	89
Prepositional Group	90
Phrases	91

Chapter 6 Clauses and Clause Complexes

Introduction	93
Clauses	93
Minor and Major Clauses	94
Independent and Dependent Clauses	95
Non Elliptical and Elliptical Clauses	96
Non-Embedded and Embedded Clauses	97
Clause Complexes	98
Expansion	99
Elaboration (=)	100
Extension (+)	100
Enhancement (x)	100
Projection	101
Taxis or Interdependency	101
Parataxis	102
Hypotaxis	102

Scope of Syntax

Introduction

Have you ever heard the word Syntax? What is syntax on your mind? The word syntax derived from Ancient Greek *σύνταξις* "coordination" from *σύν syn*, "together," and *τάξις táxis*, "an ordering". Linguistically, it can be described as the study of rules, or "patterned relations" that govern the way the words in the sentence come together. Pay attention to the following examples:

- (1) *Read *The Fault in Our Stars* Laras in her bed room.
- (2) *In her bed room read *The Fault in Our Stars* Laras.
- (3) **The Fault in Our Stars* read Laras a in her bed room.
- (4) Laras read *The Fault in Our Stars* in her bed room.

The examples (1) to (3) above have the same words in every sentence as those in the example (4). But although the first three examples have the same words as the fourth, the example (1) to (3) cannot be called sentences. The arrangement of the words in the first three sentences is not correct so that they are not accepted as sentences in English (* = expresses ungrammatical in English). The correct arrangement in English is only the example (4). Now you pay attention to the next examples.

- (5) Amir hit Irfan.
- (6) Irfan hit Amir.

Syntactically, the two examples (5) and (6) are the same, one subject, one verb, and one object. Both of the examples above have the same elements, but they have different meanings. Semantically,
