International Journal of Linguistics

International Journal of Linguistics (ISSN 1948-5425) which is an online scholarly journal, peer-reviewed, published by Macrothink Institute. The journal encourages submission in but not limited to subjects of linguistics, including theoretical linguistics, descriptive linguistics and applied linguistics. In addition to the broad area of language research, the creative approaches to language learning and teaching are also involved, leading linguistics to a higher level of cognitive development. The linguistic research contributes to cooperation of people groups throughout the world. Abundant and professional resources of linguistics are needed to meet a wide and infinitely varied range of communicative goals. From this perspective, the journal aims to improve the communicative power of the language and consolidate the national language communicative tool available to speakers. The International Journal of Linguistics also provides the opportunities for sharing the resources among members of the academic community.

International Journal of Linguistics is now indexed in the following list:

International Journal of Linguistics has used DOI (Digital Object Identifier) system. Each article will be assigned a DOI number and add persistent link for retrieval.

What is doi?

The [Digital Object Identifier](#) (DOI®) System is for identifying content objects in the digital environment. DOI® names are assigned to any entity for use on digital networks. They are used to provide current information, including where they (or information about them) can be found on the Internet. Information about a digital object may change over time, including where to find it, but its DOI name will not change. pls find more DOI information at <http://www.doi.org/>

Critical Discourse Analysis of Reporting on "*Saweran* for KPK Building" in Media Indonesia Daily Newspaper

Abstract

This research entitles "Critical Discourse Analysis of Reporting on "*Saweran* for KPK Building" in Media Indonesia Daily Newspaper". The method used in this research is

¹ Mayasari, M.Hum. is a postgraduate student on general linguistics program Faculty of Humanities of Universitas Padjadjaran. Dr. Nani Darmayanti and Dr. Sugeng Riyanto are lecturers in Faculty of Humanities Universitas Padjadjaran. They all concern in sociolinguistics, pragmatics, and discourse analysis.

descriptive method with three-dimensional models of critical discourse analysis approach by Norman Fairclough. The purposes of this study are (1) to describe the aspects of language used to represent characters and news topics, (2) to describe the relationship between the ideology of Media Indonesia Daily Newspaper and the aspects of language produced, and (3) to describe the situations of social, political, and cultural underlying aspects of language used. The results show that aspects of language diction, sentence usage, and source selection used in direct quotations in Media Indonesia have placed figures or institutions particularly the House of Representatives (DPR) in the negative representation. It is closely related to the ideology of nationalism espoused by the Media Indonesian institution which supports anti-corruption movement by the Corruption Eradication Commission (KPK). Nonetheless, the representation not only relates to the ideology espoused but also associates with the political interests of Media Indonesia leader who becomes the founder of the National Democratic Party (Nasdem) in conducting a positive image of the party he leads.
